

JOHAN STIVEN MONSALVE ABELLO

Jr Backend Developer · .NET Framework (C#) · SQL Server

Bogotá, Colombia · estivenabello11@gmail.com

[LinkedIn](#) · [GitHub](#) · [Workana](#)

PROFESSIONAL PROFILE

Jr backend developer with experience in .NET Framework (C#) and SQL Server, building REST APIs and database-driven systems. Currently working freelance in data analysis, designing and optimizing SQL queries on databases with complex business logic. Additional skills in HTML and CSS. Software Development Technologist (SENA), Systems Engineering student (Universidad EAN), and IBM AI Engineering Professional Certificate holder. Known for meeting deadlines, attention to detail, and clear communication on progress and blockers — complemented by experience in community leadership in Bogotá.

PROFESSIONAL EXPERIENCE

Data Analyst — Freelance

Workana | March 2026 – September 2026

- Designed and optimized SQL queries for data extraction and transformation across databases with multiple related tables.
- Built interactive dashboards and visual reports in Metabase.
- Processed and analyzed data using Python and Excel.
- Direct client interaction: requirements gathering, estimation, and delivery under agreed deadlines.

Software Developer — Apprenticeship Contract

Aviatur | June 2024 – January 2025

- Developed backend services in .NET Framework (C#) with MVC architecture, including REST APIs with JSON serialization and Postman testing.
- Optimized SQL queries, improving data handling performance.
- Refactored backend modules on WSL environments, improving system maintainability.
- Developed interfaces with HTML, CSS, and JavaScript.
- Worked within a Scrum methodology team, contributing to internal process improvements.

LEADERSHIP & COMMUNITY

Group Leader — Volunteer Service

IDRD (Bogotá District Institute for Recreation and Sports) | Unpaid volunteer

- Led group activities within a community recreation program, coordinating participants and group dynamics.

TECHNICAL SKILLS

Backend: C# / .NET Framework (MVC, REST APIs), Python, PHP

Databases: SQL Server (complex queries, optimization), MySQL

Frontend: JavaScript, HTML, CSS

Tools: Visual Studio, Git / GitHub, Postman, Swagger, Metabase

Methodologies: Scrum

Languages: Spanish (native), English (B1)

PROJECTS

Sales System

- Sales system with backend in PHP and Python, MySQL database, and a responsive web interface.
- Deployed on Azure using Docker containers.

Vector — Personal Venture

- Building software that integrates LLM models and APIs (including Claude) to bring AI-powered features into software products.

EDUCATION & CERTIFICATIONS

Systems Engineering — Universidad EAN · February 2025 – Present

Software Development Technologist — SENA · January 2023 – January 2025

IBM AI Engineering Professional Certificate — November 2025
